Re: Riverside Avenue IFB SF1838-008
Transportation and Disposal of Non-Hazardous Soil from Spill Clean Up

Dear OSC Daly:

This letter serves as notification to KEMRON's intent to award a subcontract to Capitol Environmental Services, Inc. for the transportation and disposal of non-hazardous soil from spill clean up at the Riverside Avenue site for a price of \$8,465.00. The original bid documents show American Waste Management Services, Inc. (AWMSI) as having the lowest bid at \$6,935.00. Upon further investigation, AWMSI's price did not include the additional analytical which the facility will need in order to accept the material. This cost on a 24-hour turnaround time will be \$1,500.00 for the additional parameters. The cost for an additional day of rolloff box rental must also be added into AWMSI's total cost. This total cost is \$40.00 at \$10.00 per day per four rolloff boxes. This brings AWMSI's total bid to \$8,475.00 which places Capitol as the lowest bidder.

I have enclosed the bid responses as well as the 3-bid comparison spreadsheet for your review.

Respectfully yours,

Janelle Murphy
Transportation and Disposal Coordinator

Atlanta, GA 30318
Attention: Janelle Murphy**

Or email responses to jmurphy@kemron.com

1.0 INSTRUCTIONS TO BIDDERS

1.1 Statement of Work (See Appendix C for detailed scope):

KEMRON Environmental Services, Inc. is a prime contractor for the U.S. EPA Region II, at the Riverside Avenue Site, located in Newark, New Jersey. KEMRON is soliciting pricing from vendors for the transport and disposal of non-hazardous soil from a spill clean up. This work must be completed in accordance with all applicable federal, state, and local regulations.

Period of Performance: 4/10/2012 to 5/16/2012

1.2 Facsimile Bids are Acceptable – Please fax to (404) 636-7162—or e-mail to jmurphy@kemron.com – Attention Janelle Murphy

You must include the following documents in order to be considered:

- KEMRON Service Agreement & Subcontractor Safety Performance Questionnaire
- Appendix B, Attachment 2 (*Representations and Certifications*)
- Appendix B, Attachment 3 (*Vendor Responsibility Certification*)
- Appendix D (*Rate Schedule*)

If preferred, you may mail those bids to the address listed on the front of this IFB. Please make sure mailed bids arrive by the due date. **Due Date/Time for Submitting Bid: April 10, 2012 at 3:00 pm Eastern Standard Time**

1.3 Questions

Questions may arise regarding this RFP. Complete the Questions Form for each question. Submit written questions to Janelle Murphy at the fax number below or via e-mail jmurphy@kemron.com and we will respond to each written question and deliver the response to all potential bidders, as appropriate.

Fax Number: (404) 636-7162

Due Date/Time (for Questions): April 9, 2012 by 3:00 p.m. Eastern Standard Time

1.4 Type of Contract To Be Awarded

- ☐ Fixed Price Supply (FP-SUP) Definite Quantity
- ☐ Fixed Price Supply (FP-SUP) Indefinite Quantity
- ☐ Fixed Price Service (FP-SVC) Definite Quantity

**Appendix C – Statement of Work
(RETURN REQUIRED)**

IFB No. SF1838-008

The Statement of Work under this IFB or contract is for the subcontractor(s) to provide all labor, equipment, materials, and supplies, to properly perform transportation and disposal of non-hazardous soil at the Riverside Avenue site located in Newark, New Jersey.

C.1 Site Information

Site Name: Riverside Avenue Site

Street Address: 29 Riverside Avenue, Newark, New Jersey 07104.

Situation: KEMRON Environmental Services, Inc. is the prime contractor for the U.S. EPA Region II, at the Riverside Avenue Site, located in Newark, New Jersey. As part of this work, KEMRON has been tasked with providing transportation and disposal services of non-hazardous soil located on the property. This waste must be transported and disposed of in accordance with all applicable federal, state, and local regulations.

C.2 Description

The scope of work under this IFB is for the successful bidder to supply all labor, equipment, materials, and any and all permits, licenses, and insurance necessary to perform the work listed and described in this solicitation. All work must be completed in a manner consistent to meet all requirements under Federal, State and local regulations and requirements.

In order to perform cleanup, KEMRON requires material be removed from site for off-site disposal at a CERCLA acceptable facility.

Item	Description	EPA Hazardous Waste Codes	Approximate Quantity	Unit Measure
A	Disposal of Non-Hazardous Soil	None	0-75	Tons
B	Transportation of Line Item A via 30 yard Rolloff	NA	0-4	Loads
C	Demurrage – Allow 2 free hours load time	NA	0-2	Hour
D	Tax (State, County/Local)			

Line Item A – is for the disposal of non-hazardous soil. Liquid contained in one of the on-site frac tanks spilled out onto the surrounding soil. This soil was excavated and placed into rolloff boxes. The soil does not have fluid leaching out but does leave a sludge residue on a gloved hand when grabbed. The liquid inside the frac tank was sent to a laboratory for analysis. See attached laboratory analysis.

Sample IDs: Frac Tank 4-Basement Fluid/Sludge

Line Item B- This line item is for the transportation of line item A via 30 yard rolloffs. Rolloffs on site are provided by Freehold Cartage, Inc.

Line Item C – is for any demurrage that may be incurred during the loading of this waste. Allow 2 free hours load time. Award of this RFP will not be based on this line item, but the unit rate and extended rate will be included in the not-to-exceed value of the awarded subcontract. See C.4.4 Demurrage.

Line Item D - KEMRON is not tax exempt therefore all applicable State and Local taxes must be included in this line item. Tax should be applied for the state where the waste will be disposed of.

****Note: Modifications to the bid form may deem you unresponsive and the bid will be disqualified. Therefore, include pricing on each of the line items, per the unit(s), and shown and described in the Statement of Work.**

KEMRON subcontracts are fixed rate ID/IQ and therefore there is no contract, subcontract, or FAR clause or mechanism that allows us to change these fixed rates unless the scope of work changes. Vendors must bid the projects with the current trends in fuel prices in mind. There cannot be variable rates based on the variable fuel rates, no sliding scale (like 20-30% surcharge, has to be 20% or 30%, can't be either/or). This rate **MUST** be effective for the entire length of this project.

Fees and Surcharges

If fees and surcharges are applicable, please list them below. Fees and surcharges are to be included in the unit rates but must be broken out and listed below.

<u>Description</u>	<u>Amount</u>

C.3 SCHEDULE

Off-site transportation and disposal will begin immediately upon award of this IFB and approval of associated waste profiles. Waste must be off site no later than April 17, 2012. See Section C.4.5, Liquidated Damages, below for penalties associated with missing this schedule.

C.4 CERCLA COMPLIANCE

The facility(s) accepting the waste must be in compliance with the CERCLA Off-Site Disposal Rule (40 CFR 300.440 as stated in Federal Register Vol. 58, No. 182, dated September 22, 1993) and must have all required permits. All intermediate facility(s), Treatment, Storage, and Disposal facility(s) (TSDF) at which waste stops en route to the final disposal facility must also be in compliance with the Off-Site Policy. If, at anytime during the duration of this contract, the TSDF or ultimate disposal facility(s) receive notice that it is not or may not be in compliance with the CERCLA Off-Site Disposal Rule, the subcontractor must notify KEMRON Environmental Services' Project Manager immediately in writing. In any event, KEMRON Environmental Services, Inc. shall have the right to unilaterally terminate this contract.

C.4.2 DELIVERABLES

The subcontractor must supply the KEMRON response manager with the following documentation:

C.4.2.1 Manifest

The subcontractor must provide an unsigned, completed manifest, any applicable forms, as well as any other shipping documents, markings, and labels to the KEMRON response manager at least 48 hours prior to the shipment of waste.

The subcontractor must provide a photocopy of the fully executed manifest to the KEMRON response manager and the T&D coordinator **within thirty (30) calendar days** of the waste delivery to the disposal facility, along with a copy of the receiving facilities executed manifest identifying the amount of material received. The awarded vendor must supply documentation regarding when and to whom the TSDf-signed manifest was sent in order to comply with 40 CFR 262.40.

C.4.2.2 Certificates of Destruction/Disposal

Certificates of treatment, disposal, and/or destruction from the final disposal facility, along with weigh tickets, must be sent to the KEMRON T&D coordinator.

Certificates of Destruction/Disposal, if applicable, must include the number of the manifest when the waste was transported off-site, as well as a description of the waste as reported on the manifest. **Within 90 days of waste shipment all waste disposal must be complete and all certificates of disposal and completed invoices received (must include at a minimum: all related executed manifests and all certificates of treatment, storage and disposal not previously received by KEMRON and weight tickets as appropriate). For any delay in the waste disposal or receipt of deliverables, payment will be reduced by 5% of the total invoiced amount under this subcontract for each 30-day period, beginning on the first day of each 30-day period.**

C.4.2.3 Recovery Act Funds - Federal Reporting

Both Prime and sub-recipients of Recovery Act funds are required to report contract amounts and other data at <http://www.federalreporting.gov>.

C.4.3 OFF SPECIFICATION MATERIAL

In the event that any off specification (Off Spec) material arrives at the disposal facility(s), prior written authorization must be given by KEMRON before any additional charges can be incurred. KEMRON defines Off Spec materials as those wastes that prove to be inconsistent with the approved waste profile as accepted by the disposal facility(s). Before KEMRON will authorize any additional cost, the subcontractor will provide in writing, on company letterhead, a statement certifying the waste is Off Spec waste. The signatory of this statement must have the authority to bind the subcontractor's company. In addition to the statement that the waste is Off Spec, the written notification will include the reason the waste was deemed Off Spec. The reason will include how the waste was profiled and which parameter on the profile was incorrect. If the waste is deemed to be Off Spec due to its chemical nature, the Off Spec notification must be accompanied by hard copy analytical data from the laboratory performing the testing that indicates that the materials are Off Spec. In this circumstance, it will be the subcontractor's responsibility to provide (if requested by the KEMRON T&D coordinator and response manager) a 16oz sample of the Off Spec waste at no additional cost to KEMRON. If the waste is Off Spec due to physical characteristics, the vendor must provide KEMRON with photocopies documenting the waste characteristics.

C.4.4 DEMURRAGE

The transporter must allow for up to two (2) free hours for loading and will take full responsibility for off loading at the designated treatment/disposal facility prior to demurrage charges being applied. Prior written approval from KEMRON must be received before any additional cost can be incurred. KEMRON will not pay any demurrage cost without written documentation of when the truck arrived and when the truck departed the site or facility. In order to establish whether demurrage charges are justified and reimbursable by KEMRON, the selected disposal facility must be prepared to show written documentation of the when the truck arrived, when it departed, and why demurrage was incurred beyond the free two (2) hour period. KEMRON will not pay more than 5 hours demurrage per day and will not pay demurrage for more than 4 days in any 7-day period. A day is defined as 24 consecutive hours. If the bid is for transportation and disposal, then it is the subcontractor's responsibility to schedule the waste into the disposal facility. KEMRON will not pay demurrage at the facility unless the waste is outside of the parameters specified on the waste profile.

C.4.5 Liquidated Damages

For any delay in the acceptance of the waste from the site, not due to acts of KEMRON, the EPA, or other factors outside of the subcontractor's control (such as inclement weather, floods, acts of war, etc.) a reduction in the total charge for services will be \$500.00 per day for each additional day the waste remains on site (see C.3 Schedule). If liquidated damages are invoked KEMRON will deduct the charges from the subcontractor's invoice prior to payment and notify the subcontractor in writing.

For any delay in the waste disposition or the receipt of the certificates of disposal will result in a reduction of total payment by 5% per each 30-day period.

C.5 Invoicing

All invoices must reference the project name (Riverside Avenue SF1838), site location city and state. Final invoicing must be submitted to KEMRON within 30 days of completion of the project. Invoices are to be submitted to:

KEMRON Environmental Services

D.1 Bidder's Price

For the Statement of Work described in Appendix C, the price must be given in the format specified in this IFB. Any other format may cause your bid to be deemed non-responsive (pursuant to FAR 14.301). The description for each line item is provided in the Statement of Work, Appendix C, Description.

Item	Description	EPA Hazardous Waste Codes	Approximate Quantity	Unit Measure	Unit Price	Extended Price
A	Disposal of Non-Hazardous Soil	None	0-75	Tons	\$29.00	\$2175.00*
B	Transportation of Line Item A via 30 yard Rolloff	NA	0-4	Loads	\$1150.00	\$4600.00
C	Demurrage – Allow 2 free hours load time	NA	0-2	Hour	\$80.00	\$160.00
D	Tax (State, County/Local)				\$	\$
	GRAND TOTAL					\$6935.00

Note: All prices should be shown in U.S. dollars and will remain valid for 90 days from the date of this offer.

Pricing must include all fees, fuel surcharges, costs of analysis, or any other costs, which may be involved in the normal course of transporting this waste to the designated facility, for accepting this type of waste into the facility, and for performing the treatment and disposal of this waste.

D.2 Bidder's Signature

This signature means that the bidder has read and understands this bid package and is willing to execute a KEMRON subcontracting agreement (enclosed) without changes. **The signatory must have the authority to bind the bidding company.** The signature also means that all statements in this bid are accurate and truthful. Prices must be all inclusive and in the format shown. KEMRON will not pay any costs outside of the prices shown.

**Appendix D – Rate Schedule
(RETURN REQUIRED)**

IFB No. SF1838-008

D.1 Bidder's Price

For the Statement of Work described in Appendix C, the price must be given in the format specified in this IFB. Any other format may cause your bid to be deemed non-responsive (pursuant to FAR 14.301). The description for each line item is provided in the Statement of Work, Appendix C, Description.

Item	Description	EPA Hazardous Waste Codes	Approximate Quantity	Unit Measure	Unit Price	Extended Price
A	Disposal of Non-Hazardous Soil	None	0-75	Tons	\$ 74.25	\$ 5,568.75
B	Transportation of Line Item A via 30 yard Rolloff	NA	0-4	Loads	\$ 1775	\$ 7,100.00
C	Demurrage – Allow 2 free hours load time	NA	0-2	Hour	\$ 80	\$ 160.00
D	Tax (State, County/Local)				\$ Included	\$ 0.00
	GRAND TOTAL					\$12,828.75

Note: All prices should be shown in U.S. dollars and will remain valid for 90 days from the date of this offer.

Pricing must include all fees, fuel surcharges, costs of analysis, or any other costs, which may be involved in the normal course of transporting this waste to the designated facility, for accepting this type of waste into the facility, and for performing the treatment and disposal of this waste.

D.2 Bidder's Signature

This signature means that the bidder has read and understands this bid package and is willing to execute a KEMRON subcontracting agreement (enclosed) without changes. **The signatory must have the authority to bind the bidding company.** The signature also means that all statements in this bid are accurate and truthful. Prices must be all inclusive and in the format shown. KEMRON will not pay any costs outside of the prices shown.

Date: Friday, April 06, 2012 9:51:06 AM

Good morning Janelle, thanks for the opportunity and considering Clean Harbors, however please note the below No Bid form with the explanation on why we are No Bidding. Have a good weekend and thanks again for considering Clean Harbors.

No Bid	
Name: <u>Todd Sheaffer</u>	Phone: <u>540-529-5307</u>
Company: <u>Clean Harbors Environmental Services</u>	
Date: <u>4/6/12</u>	
Reason for No Bid: <u>Feel we cannot offer competitive pricing since material is Non Haz and Clean Harbors does not have a company owned disposal facility in close proximity to this site where the non haz waste is being generated.</u>

Subject: Riverside Avenue IFB SF1838-008 Transportation and Disposal of Non-Hazardous Soil
Importance: High

KEMRON has been tasked with the transportation and disposal of non-hazardous soil at the Riverside Avenue Site located in Newark, New Jersey. We invite your company to submit a bid for work on this project in accordance with the attached bid documents.

Please submit your bid by completing the appropriate portions of the enclosed IFB Response Package and submitting it to the address indicated thereon before 3:00 p.m. on April 10, 2012.

Thx,
Janelle
